Retro Refrigeration

precision

The Retro Refrigeration range has a modern professional refrigeration system on the inside, with energy-efficient and temperature control features. On the outside, a vintage retro styled unit that makes a striking focal point in any kitchen or bar.

The flexibility of the award winning Retro Refrigeration range means that, you can have both the convenience and design flare, offering customers something a little bit different in your kitchen or bar area. The iconic large robust handles and hinges, really stand out as a key design element.

The award-winning Retro Refrigeration range.

The high quality stainless steel exterior is durable and practical, providing customers with a robust product suitable for any commercial environment.

The Retro Refrigeration range is available in a variety of different metal finishes including: burnished, mirrored and brushed stainless steel to enhance any kitchen or bar design. For added flexibility, the Retro Refrigeration range, also has different door options, including: reeded and clear glass with coloured LED lighting, and wooden and metal door options to choose from.

When it comes to colour, the Retro Refrigeration range comes in a multitude of colour choices to suit any kitchen or bar layout: give us a RAL number and we will paint your Retro Refrigeration product to match.
